2 Definitions

Carrier The contractual carrier with whom the consignor has concluded the

contract of carriage or a successive carrier who is liable on the basis of that contract. If the carrier is not a railway undertaking (where national law permits that), he is to entrust the performance of the carriage by rail to a railway undertaking which acts as a successive carrier, substitute carrier or an auxiliary to the carrier within the meaning of a person for whom the carrier is liable in

art. 40 CIM.

CIM/SMGS consignment note CIM/SMGS consignment note to the design shown in Appendix 5

to this manual which documents the CIM and SMGS contracts of

carriage for traffic between CIM and SMGS states.

Exceptional consignment Within the area in which the CIM applies, the definition below,

based on UIC leaflet 502-1, applies: a consignment is considered as exceptional, if, because of its external dimensions, its mass or its nature, it gives rise to special difficulties for one of the carriers taking part in the movement taking account of railway installations and wagons and therefore can only be authorised under special

technical or operating conditions.

Payer of charges Person through whom the consignor or consignee entrusts to pay

the freight charges, and whom the consignor, as payer, enters on the consignment note, and who has a contractual relationship with the corresponding carrier (art. 31 SMGS Payment of costs and

contractual penalties).

Railway Infrastructure located on the territory of an SMGS Member State.

Reconsignment point

Interface between the CIM and SMGS regimes of carriage. The reconsignment point is

- for CIM → SMGS traffic: both the destination point for the CIM contract and the forwarding station for the SMGS contract,
- for SMGS → CIM traffic: both the destination station for the SMGS contract and the acceptance point for the CIM contract

Seal

For the purposes of this manual, the term "seal" is to be understood both as a seal and a sealing device

Substitute carrier

A carrier who has not concluded the contract of carriage with the consignor but to whom the carrier has entrusted the performance of the carriage by rail in total or in part. This definition only applies to the CIM contract of carriage

Transhipment point/change of gauge point

Location at which the consignment is transshipped or the wagon is regauged.

3 Purpose of the manual

This manual contains a specimen of the CIM/SMGS consignment note and instructions for its use. It describes an alternative to the classic system of consignment with rewriting of a SMGS consignment note to a CIM consignment note or from a CIM consignment note to a SMGS consignment note at the reconsignment point.

4 Scope

This manual is intended for members of the CIT and their customers and to participants in the SMGS and their consignors and consignees and applies to consignments:

- initially subject to the CIM Uniform Rules and then subsequently to the SMGS, or vice versa, and
- which are presented for carriage with a CIM/SMGS consignment note, and
- which are carried by the CIM and SMGS carriers listed in Appendix 1 to this manual, and
- which remain under the supervision of a CIM or SMGS carrier at the reconsignment point.

Within the CIM area, the provisions of this manual are applicable if they have been agreed between the customer and carrier as well as between the carriers themselves. The use of a CIM/SMGS consignment note is presumed. In the SMGS area, the provisions of this manual apply only to those traffic axes specified by the SMGS participants which apply this manual.

B. Common provisions for paper and electronic consignment notes

5 Legal basis

Art. 6 § 8 CIM and art. 13 SMGS form the legal basis for the CIM/SMGS consignment note.

6 Conditions of use

Within the limitations laid down in this manual, the CIM/SMGS consignment note may be used as a CIM consignment note in the area in which the CIM applies and as an SMGS consignment note in the area in which the SMGS applies. The same principle also applies to the use of the CIM/SMGS consignment note as a customs document.

7 Content of the consignment note

Appendix 2 to this manual contains explanatory notes on the content of the CIM/SMGS consignment note.

8 Languages

8.1 <u>Description of the boxes on paper consignment notes and on printouts of the electronic consignment note</u>

Descriptions of the boxes are to be printed in two, or as appropriate three, languages of which one must be Russian and another English, French or German*. For consignments to or from the People's Republic of China, descriptions of the boxes are additionally to be printed in Chinese.

8.2 Content of the consignment note

The entries on the consignment note are to be in the following languages:

- a) Boxes which refer to both the CIM and SMGS contract of carriage: Russian plus English, French
 or German*. For consignments to the People's Republic of China, the consignment note may
 additionally be completed in Chinese,
- b) Boxes which only refer to the CIM contract of carriage: English, French or German*,
- c) Boxes which only refer to the SMGS contract of carriage: Russian. For consignments to the People's Republic of China, the consignment note may additionally be completed in Chinese.

9 Reconsignment points

Appendix 3 to this manual contains the list of reconsignment points.

^{*} Parties involved in the movement may agree to use a language other than English, French or German. For dangerous goods consigned under the RID, only the states involved in the CIM contract of carriage may authorise a derogation on the language to be used for the information shown on the consignment note.

10 Contractual parties

10.1 Consignments from states which apply the CIM Uniform Rules

The consignor shown on the consignment note is the consignor for the CIM contract of carriage and simultaneously consignee of the CIM contract of carriage and consignor for the SMGS contract of carriage.

The last carrier under the CIM contract of carriage is authorised and obliged to act for the consignor in accordance with the consignor's instructions at the reconsignment point.

10.2 Consignments from states which apply the SMGS

The consignor shown on the consignment note is the consignor for the SMGS contract of carriage and simultaneously consignee of the SMGS contract of carriage and consignor for the CIM contract of carriage.

The final carrier under the SMGS contract of carriage is authorised and obliged to act for the consignor in accordance with the consignor's instructions at the reconsignment point.

11 Payment of charges

Except where otherwise agreed between the consignor and the carrier, the following provisions are applicable:

11.1 Consignments from states which apply the CIM Uniform Rules

Charges arising from the CIM contract of carriage are to be paid by the consignor.

Charges associated with the SMGS contract of carriage are to be paid by the consignee. If the consignee pays via a payer of charges, this person should be named in the consignment note.

11.2 Consignments from states which apply the SMGS

Charges associated with the SMGS contract of carriage are to be paid by the consignee. If the consignee pays via a payer of charges, this person should be named in the consignment note.

Charges arising from the CIM contract of carriage are to be paid by the consignee.

12 Liability, CIM/SMGS formal report, CIM/SMGS claims, payment of compensation

12.1 Liability

The provisions of the CIM Uniform Rules and the SMGS for liability remain unchanged by the use of a CIM/SMGS consignment note.

12.2 <u>CIM/SMGS formal report</u>

The CIM/SMGS formal report is to be made out in accordance with art. 42 CIM or art. 29 SMGS.

The explanatory notes on filling out the CIM/SMGS formal report together with a specimen of it are shown in **Appendices 8** and **8.1** of this manual.

12.3 CIM/SMGS claims

12.3.1 Principles

Claims for the total or partial loss of or damage to goods in consignments accompanied by CIM/SMGS consignment notes are to be submitted and handled in accordance with the provisions of the CIM (art. 43 to 45 CIM) and of the SMGS (art. 46 SMGS) together with the provisions below:

12.3.2 The CIM/SMGS claims handling procedure for claims submitted in the area in which the CIM applies

If the CIM competent carrier establishes that the cause of the loss or damage did not lie or did not lie exclusively within in the area in which the CIM contract of carriage applies, he is to assess the claim for damages relating to liability in the area in which the CIM Uniform Rules apply and notify his decision to the person entitled.

For subsequent handling within the area in which the SMGS applies, the CIM competent carrier is to send the claim for damages together with the documentation submitted to the SMGS processing carrier¹ (Appendix 9 of this manual) and notify the person entitled that he has done so.

The SMGS processing carrier is to handle the claim and notify the results of the case to the competent carrier.

The CIM competent carrier is to notify the final result of the assessment of the claim to the person entitled.

Suspension of the period of limitation in the area in which the CIM Uniform Rules apply comes to an end when the documentation submitted is returned to the person entitled or the claim is sent on to the SMGS processing carrier.

12.3.3 The CIM/SMGS claims handling procedure for claims submitted in the area in which the SMGS applies

If the SMGS processing carrier (Appendix 9 of this manual) establishes that the cause of the loss or damage did not lie or did not lie exclusively within in the area in which the SMGS applies, it is to assess the claim for damages relating to liability in the area in which the SMGS applies and notify its decision to the claimant.

For subsequent handling within the area in which the CIM Uniform Rules apply, the SMGS processing carrier is to send the claim together with the documentation submitted to the last CIM carrier/CIM contractual carrier² (Appendix 9 of this manual) and notify the claimant that he has done so.

The last CIM carrier/CIM contractual carrier is to handle the claim and notify the results of the assessment of the claim to the SMGS processing carrier.

The processing SMGS carrier is to notify the final result of the assessment of the claim to the claimant.

¹ The processing carrier of the SMGS forwarding railway for consignments from the SMGS area to the CIM area; the processing carrier of the destination SMGS railway for consignments from the CIM area to the SMGS area.

² CIM contractual carrier for consignments from the CIM area to the SMGS area; last CIM carrier for consignments from the SMGS areato the CIM area.

12.3.4 List of addresses

The list of addresses of the departments of carriers to which claims must be sent for further handling under the CIM/SMGS claims procedure is given in **Appendix 9** of this manual.

12.4 Payment of compensation

12.4.1 Principle

Payment of compensation for damages which have arisen from the total or partial loss of, or damage to, goods covered by a CIM/SMGS consignment note is to be made by the competent CIM carrier to the person entitled or by the processing SMGS carrier to the claimant. If the competent CIM carrier cannot make payment of the compensation approved direct to the person entitled or if the processing SMGS carrier cannot make payment of the compensation approved direct to the claimant, the provisions below apply.

12.4.2 Payment of compensation in accordance with point 12.3.2

Payment of compensation approved by the SMGS carrier is to be made by the competent CIM carrier to the person entitled once the competent CIM carrier has received the amount in question from the processing SMGS carrier.

12.4.3 Payment of compensation in accordance with point 12.3.3

Payment of compensation approved by the CIM carriers will be made by the competent railway department to the claimant once the processing SMGS carrier has received the amount in question from the competent CIM carrier.

12.4.4 Invoicing the compensation paid

Invoicing between CIM carriers and the processing SMGS carrier is to be in accordance with the agreements they have made between themselves.

13 Seals

The following special provisions apply to consignments from states which apply the CIM Uniform Rules:

- a) Covered wagons which have not been sealed by customs or other administrative authorities are to be sealed on forwarding either by the consignor or by the carrier, as agreed.
- b) The consignor is to seal closed UTI which are presented for carriage loaded.
- c) The tally number and description of the seals are to be entered on the consignment note (box 26 for customs and other administrative body seals and box 20 for consignor and carrier seals attached on forwarding).

14 Authorisations, agreements

14.1 List of addresses

Appendix 4 to this manual contains the list of addresses of departments to which applications for the authorisations and agreements below are to be sent.

14.2 Consignments from states which apply the CIM Uniform Rules

14.2.1 Authorisation to load

Exceptional consignments are only accepted for carriage after having been authorised in advance by the SMGS carriers participating in the movement.

Processing of the application:

Consignor (at least a month before the start of the CIM movement)

 Ψ

CIM carrier (at the forwarding point under the CIM contract of carriage)

 \downarrow

SMGS carrier (at the reconsignment point)

 \downarrow

CIM carrier (at the forwarding point under the CIM contract of carriage)

 \downarrow

Consignor

After consulting the SMGS carriers taking part in the movement, the SMGS carrier at the reconsignment point is to provide the numbers of the authorisations. These numbers are to be entered in box 7 "Consignor's declarations" of the CIM/SMGS consignment note using code 19.

14.2.2 Consignments with defective packing

Consignments with packaging which is defective such as to raise serious concerns that its use may prevent transhipment of the goods, cause all or part of the goods to be lost, or damage the goods or railway vehicles, are accepted for carriage under the specific contractual conditions of SMGS Article 8.

Processing of the application:

Consignor (at least 14 days before the start of the CIM movement)

 \downarrow

CIM carrier (at the forwarding point under the CIM contract of carriage)

 \downarrow

SMGS carrier (at the reconsignment point)

 \downarrow

CIM carrier (at the forwarding point under the CIM contract of carriage)

 ψ

Consignor

After consulting the other SMGS carriers taking part in the movement, the SMGS carrier at the reconsignment point will provide the numbers of the authorisations for those movements to be performed under the specific conditions of carriage. These numbers are to be entered in box 7 "Consignor's declarations" of the CIM/SMGS consignment note using code 21.

14.3 Consignments from states which apply the SMGS

14.3.1 Agreement to carry

The SMGS contractual carrier must reach agreement with the CIM carrier at the reconsignment point before sending the consignment.

Applications for authorisation for each traffic axis and for a specific period of time are to be sent at least seven days before the beginning of the movement (or a month in the case of an exceptional consignment, even when the consignment is only considered exceptional over part of the route). They must contain at least the following information: traffic axis, description of the goods. After processing of the application with other CIM participating carriers, the CIM carrier at the reconsignment point will provide the SMGS contractual carrier with the authorisation number and as appropriate, the special conditions which are to be applied with effect from the forwarding railway station. The agreement number is to be entered in box 64 "Carrier's declarations" of the CIM/SMGS consignment note. See point 15.1 below.

For consignments which are to be carried as exceptional consignments within the CIM area and under CIM conditions, even if only over a section of the journey, the CIM carrier at the reconsignment point is to inform the SMGS contractual carrier of the authorisation number which is to be entered into box 7 of the consignment note under code 11.

If the characteristics of individual consignments differ from the information supplied and accepted in the authorisation process, the SMGS contractual carrier is to ask the CIM carrier at the reconsignment point if the authorisation can be extended to them or if a new authorisation is necessary. After consideration of the application, the CIM carrier at the reconsignment point is to inform the SMGS contractual carrier of the result.

15 Customs processes

15.1 Obligations regarding customs security procedures and other customs obligations

Before goods enter the European Union (EU), it is necessary to check that the customs security obligations and other customs obligations which apply to that territory have been satisfied.

If the simplified transit procedure for rail is to be used within the territory of the European Union (EU) or that of the contracting parties of the EU/EFTA Convention on a Common Transit Procedure, for consignments from states that apply the SMGS, the SMGS contractual carrier is to ensure that details of the contractual CIM carrier and the holder of the paper-based Union transit procedure are entered on the consignment note before the consignment enters the territory of the European Union. To allow this to be done, the CIM carrier at the reconsignment point is to inform the SMGS contractual carrier of the details to be entered in box 66 of the consignment note when he supplies the agreement number in accordance with point 14.3.1.

15.2 Supply of the invoice

For consignments from states in which the CIM Uniform Rules apply, the consignor is to supply the invoice for the goods with the consignment note.

16 Dangerous goods

Dangerous goods are only accepted for carriage if they satisfy the provisions of the RID and SMGS Appendix 2³

17 Deliberately left blank

18 Loading tackle

18.1 Consignments via Poland and Romania

Except where otherwise agreed between the CIM carriers and SMGS carriers concerned, CIM carriers' loading tackle (wagon sheets etc.) will only accompany the consignment to the point of transhipment.

Privately owned loading tackle will accompany the consignment to the final destination station.

18.2 <u>Consignments via Bulgaria, Hungary, Slovakia and the Sassnitz-Mukran – Klaipeda ferry</u>

CIM carriers' loading tackle (wagon sheets etc.) is not permitted.

Privately owned loading tackle will accompany the consignment to the final destination station.

C. Paper consignment note

19 Specimen

A specimen consignment note is shown in <u>Appendix 5</u> to this manual. It consists of six numbered sheets in A4 format:

Sheet		Detention of the about	
No	Description	Retention of the sheet	
1	Original of the consignment note	Consignee	
2	Invoice	Carrier who delivers the goods to the consignee	
3	Arrival note/Customs (CIM)	Carrier at destination / Customs / Carrier who delivers the goods to the consignee.	
4	Duplicate of the consignment note	Consignor	
5	Duplicate invoice (CIM)	Forwarding carrier / contractual carrier	
6	Delivery note (SMGS)	Consignee ⁴	

Where consignments come from states that apply the SMGS, the consignor is to make out as many additional copies of the invoice as there are SMGS carriers participating in the movement (excluding the carrier who delivers the goods to the consignee). The contractual carrier may decide whether or not to make out an additional copy of the invoice for himself. A specimen of the additional invoice is shown in <u>Appendix 5.1</u> of this manual.

SMGS Appendix 2 may be ordered from the SMGS carriers at the reconsignment point - see addresses in Appendix 4 of this manual.

³ The forwarding carrier is to supply the information necessary. Details of how to order the RID may be obtained from the following address: Intergovernmental Organisation for International Carriage by Rail (OTIF) Gryphenhübeliweg 30 CH - 3006 BERN

⁴ Amendment No.5 from 1st July 2021.

Where consignments come from states that apply the CIM Uniform Rules, these additional copies of the invoice are to be supplied by the SMGS carrier at the transhipment/gauge change point in the form of photocopies of the invoice which are to be authenticated by the date stamp.

When the consignment note is produced as a computer printout, the following conditions must be observed:

- content: no departure from the specimen

- layout: as little departure from the specimen as possible

The back of CIM/SMGS consignment notes may be printed on special sheets (supplementary sheets).

20 Groups of wagons and containers consigned using a single CIM/SMGS consignment note

Groups of wagons and containers may be consigned using a single CIM/SMGS consignment note and a CIM/SMGS wagon list/container list provided there has been prior agreement between the consignor and the carriers taking part and provided the following conditions are satisfied:

- same consignor and consignee,
- same acceptance point/forwarding station,
- same delivery point/destination station,
- same commodity (unless agreed otherwise).

Explanatory notes on the use of CIM/SMGS wagon lists and container lists together with specimens of them are shown in <u>Appendices 7.1</u> to <u>7.4</u> of this manual. The procedure to be followed in the event of detaching wagons or containers consigned using a single consignment note is given in <u>Appendix 7.5</u> of this manual.

D. Electronic consignment note

21 CIM – Functional equivalence as the legal basis (CIM Article 6 § 9)

The consignment note and its duplicate may be created in the form of an electronic data record which can be transformed into legible written symbols. The procedures used for data storage and processing must be functionally equivalent to those for the paper system particularly in so far as the evidential value of the consignment note represented by that data is concerned.

22 SMGS – Agreement between carriers, consignors and consignees who apply the SMGS as the legal basis

The contract of carriage may be concluded using an electronic consignment note. The electronic consignment note fulfils the function of the paper consignment note and is an electronic data record which is identical to the data record of the paper consignment note. If necessary, this electronic consignment note and any supplementary sheets may be printed on paper to the format shown in Appendix 5 of this guide. The original data is to be retained in addition to any altered data where data input to the electronic data record is altered in accordance with the provisions of the SMGS.

Agreement for the use of electronic data interchange for international freight traffic by rail (EDI agreement)

The carriers and the customers (consignors and consignees) are to set down the messages to be exchanged and the ways in which electronic consignment note data will be exchanged in a contract.

24 Deliberately left blank

E. Final provisions

25 Amendments and additions

Amendments and additions to this manual which affect both the CIM and SMGS contracts of carriage will be made after having been jointly agreed between the CIT and OSJD.

Members of the CIT and participants in the SMGS are to send their proposals for amendments and additions to the General Secretariat of the CIT and to the Committee of the OSJD simultaneously, providing the information which is to appear in <u>Appendices 1</u>, 3, 4 and 9 of this manual. Amendments and additions will come into effect fourteen days after being made known by the General Secretariat of the CIT and the Committee of the OSJD.

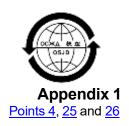

The General Secretariat of the CIT is to notify the Committee of the OSJD of amendments and additions which exclusively concern the CIM contract of carriage 45 days before they come into effect.

The Committee of the OSJD is to notify the General Secretariat of the CIT of amendments and additions which exclusively concern the SMGS contract of carriage 45 days before they come into effect.

26 Proposals for the beginning and end of the application

Members of the CIT and participants in the SMGS are to send any proposals which they have decided to make on the beginning and end of carriage in accordance with this manual simultaneously to the CIT General Secretariat and Committee of the OSJD, supplying the information laid down in <u>Appendix 1</u>. These notifications will come into effect the first day of the second month after their notification by the CIT General Secretariat and the Committee of the OSJD.

Explanatory notes on the content of the CIM/SMGS consignment note

1 Boxes on the CIM/SMGS consignment note and their content

Notes:

- Except where this appendix provides otherwise or otherwise agreed between the consignor and carrier, boxes 1 to 29 are to be completed by the consignor (with the exception of box 26 "Customs endorsements").
- The information in boxes 65 and 66 referring to the SMGS contract of carriage is to be supplied by the consignor.
- If the space within a box is inadequate and the edge of the box is marked with a dotted line, the entry may be continued outside the box. The clarity of entries within the boxes encroached on must not be compromised. When there is still inadequate space even after doing so, supplementary sheets must be used. These supplementary sheets will become an integral part of the CIM/SMGS consignment note and must be the same size as the CIM/SMGS consignment note and be produced in the same quantity as the CIM/SMGS consignment note has sheets. In addition to the data for which there has been no space on the consignment note, the consignment number and the date of acceptance of the goods must be entered on these supplementary sheets. Box 9 of the CIM/SMGS consignment note must contain a reference to these supplementary sheets if they have been provided by the consignor; the reference is to be contained in box 101 if they have been provided by the carrier.
- The entries in boxes 7, 13, 14, 63, 64 and 65 are partially in code and partly in plain text. To avoid ambiguity, in all correspondence the code values must be identified by their box number (for example code 1 in box 7 must be described as "code 7.1").

¹³ Amendment No.12 from 1st July 2022.

CIM charging sections

- a) Charging sections A and B only apply to the CIM contract of carriage. They all have the same format. In order to avoid any ambiguity, in any correspondence, the boxes in the sections must be qualified by the number of the section in question (for example A. 57).
- b) Where a Customer Agreement providing for centralised charging is applied, only one charging section is to be used for the whole of the journey covered by the agreement no matter whether the charges set down in the agreement are expressed as sectional or inclusive charges.
- c) Every carrier who enters charges to account is to use a distinct charging section. If there are insufficient charging sections, supplementary sheets must be used (only applicable to paper consignment notes).

Except where specially agreed between the consignor and the carrier, the signature is to be replaced by the consignment number shown in box 69 (see art. 6 § 3 CIM).				
	M	SMGS	Indicate the carrier's abbreviation and code, the route section used by the carrier to execute the movement, and the codes of the stations serving as the border point between route sections.				
0.7	С	CIM	 b) Simplified transit procedure for rail (customs): By marking a cross in the box, the contractual carrier, having his registered office in the European Union (EU) or in another contracting party of the EU/EFTA Convention on a Common Transit Procedure, requests that the simplified transit procedure for rail defined by art. 25 and 30 to 44 of Commission Delegated Regulation (EU) 2016/341 (or the corresponding provisions of the EU/EFTA Convention on a Common Transit Procedure) be applied. He thus certifies that all the carriers taking part in the movement including, if applicable, substitute carriers, are authorised to apply the simplified transit procedure for rail. The contractual carrier thus becomes the holder of the paper-based Union transit procedure for goods carried by rail. If the contractual carrier does not have his registered office in the European Union or in another Member State of the EU/EFTA Convention on a Common Transit Procedure, he is to ask for the application of the simplified transit procedure for rail in the name and for the account of the carrier that first takes over the goods in a Member State of the European Union or in another Member State of the EU/EFTA Convention on a Common Transit Procedure. He thus certifies that that carrier and all the carriers following including, if applicable, substitute carriers, are authorised to apply the simplified transit procedure for rail. That carrier thus becomes the holder of the paper-based Union transit procedure for goods carried by rail. His code may only be used by the contractual carrier when he is authorised to do so. See point 15.1 of this manual for details of entries to be made in boxes 66 a) and b) for SMGS → CIM traffic. 				
67	М	CIM	Date of arrival: Date of arrival of the consignment at the destination station (year, month, day). The carrier may add an arrival number.				
	М	SMGS	Date stamp of the carrier who has delivered the goods to the destination station after arrival of the goods.				
68	С	CIM	Made available: Time (month, day, hour) that consignment is made available to the consignee. This information on the consignment note may be replaced by another means.

Explanatory notes on the completion and content of the CIM/SMGS wagon list

1 General provisions

Except where otherwise agreed, the consignor is to make out the CIM/SMGS wagon list and give it to the forwarding carrier with the CIM/SMGS consignment note.

As many copies of the CIM/SMGS wagon list must be attached as the CIM/SMGS consignment note has sheets. This must include the additional copies of the invoice described in **point 19** of this manual.

The following entry must be made in box 19 of the CIM/SMGS consignment note: "See list attached".

2 Content

Except where otherwise agreed between the consignor and the carriers, the explanatory notes below apply to the completion of the CIM/SMGS wagon list:

3 Languages

The provisions of **point 8** of this manual are applicable to the languages to be used for the description of the boxes and to the content of the CIM/SMGS wagon list.

4 Documents produced as computer printouts

When the CIM/SMGS wagon list is produced as a computer printout, the following conditions must be observed:

- content: no departure from the specimen;

- layout: as little departure from the specimen as possible.

Specimen of the CIM/SMGS wagon list

A form of the CIM/SMGS wagon list to download, complete, print-out and send electronically is available on www.cit-rail.org.

Procedure to be followed in the event of detaching wagons or containers from groups of wagons/containers consigned using a single CIM/SMGS consignment note

The information specified in <u>Appendix 2</u> of this manual on the drawing up of a re-consignment invoice sheet/ accompanying sheet must be entered in box 64 of the CIM/SMGS consignment note.

The detachment is to be recorded in the line for detached wagons or containers correspondingly in box 30 according to <u>Appendix 7.2</u> or to box 28 according to <u>Appendix 7.4</u>. Alternatively, the number of the detached wagon or container may be crossed out in such a way that it remains legible.

For the subsequent journey, a reconsignment invoice sheet or an accompanying sheet conforming to **sheet 2** of Appendix 5 to this manual is to be drawn up for each wagon or container detached.

A copy of the consignment note and the wagon/container list must be attached to the reconsignment invoice sheet or accompanying sheet.

The following endorsements are to be indicated in box 20 of the reconsignment invoice sheet or accompanying sheet:

- "reconsignment invoice sheet/accompanying sheet relating to consignment number ... (consignment number) of ... (date shown in box 70 or box 28) for ... (consignee, postal address)"
- "stopped because of ... from ... (date) ... (time) to ... (date) ... (time)"
- date stamp and signature

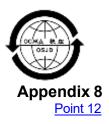

A new consignment number is to be allocated and entered in box 69 of the reconsignment invoice sheet or accompanying sheet:

- country code and station code of the station at which reconsignment is processed
- code for the carrier and consignment number in accordance with national legislation at the point where the reconsignment invoice sheet or accompanying sheet was created.

Otherwise, the invoice sheet for the reconsignment/accompanying sheet is to be processed in accordance with the SMGS official instructions in the SMGS area and the GTM-CIT in the CIM area.

Explanatory notes on the completion of the CIM/SMGS formal report

1 Provisions for implementation

- The purpose of the CIM/SMGS formal report is to record the condition of the goods and the extent of loss or damage.
- The CIM/SMGS formal report is to be made out in at least two copies. One copy is to be attached to the CIM/SMGS consignment note.
- The fact that a CIM/SMGS formal report has been made out is to be noted in box 62 of the CIM/SMGS consignment note.
- Descriptions of the boxes on the CIM/SMGS formal report are to be printed in two, or as appropriate three, languages of which one must be Russian and another English, French or German.

2 Making out the CIM/SMGS formal report

2.1 General provisions

- The provisions of <u>Appendix 20 GTM-CIT</u> and Point 4 Staff Instructions apply by analogy to the CIM/SMGS formal report.
- When making out the CIM/SMGS formal report, a cross should be put into the box which applies: made out in accordance with the CIM Uniform Rules (for the CIM and CIM/SMGS boxes) or made out in accordance with the provisions of the SMGS (for the SMGS and CIM/SMGS boxes).
- When the CIM/SMGS formal report is produced as a computer printout, the following conditions must be observed:

- content: no departure from the specimen;

- layout: as little departure from the specimen as possible.
